Items needing discussion

Fuel Type

Need to apply categories agreed in DG Collaborative: Solar, Wind, Biofuel, Diesel, NatGas; and discuss any new categories: Flywheel, Digesters, Storage, etc.

Expedited/Standard Process Text (Exp/Std)

Not all are using abbreviated "Exp" and "Std".

Date of Info Request (Date)

Only NSTAR uses. Confirm all will use in new template (for each step in process).

Comm/Indus/Resi/Muni (Text)

Only NSTAR uses (C, I, R, M). All will use in new template?

Circuit (Text)

Only NSTAR uses. Confirm all will use in new template.

Future Template

Ensure all formats in the cells are utilized to conform with protocols above.

Discuss any uncertainty about use of fields with complex info (NOTES, consistency in category names, etc.)
